**ON**

We build your resilience capability so you can better-manage your risks and respond to any incident with confidence.

# FACE ADVERSITY HEAD ON

We help organisations to become more resilient by improving their ability to respond to events affecting their people, operations or reputation.

Our approach is simple. We analyse the complexities of the operating environment and then deliver pragmatic and integrated risk management strategies to enhance the organisation's capability to act quickly.

## HOW WE HELP YOUR ORGANISATION BUILD RESILIENCE

### PREPARATION

We will assist you to design and implement effective control measures to ensure your business is prepared to respond to any unforeseen issues.

- Crisis, Emergency Management and Business Continuity Capability Audits
- Business Continuity Planning
- Crisis Management Planning
- Security Risk Assessments.

### TRAINING

Drawing on real world experience and contemporary materials, our trainers will engage and educate your team to ensure that they can respond to threats to your business.

- Incident and Crisis Management
- Personal Safety and Security
- Business Continuity Preparedness.

### EXERCISES

We conduct realistic and objective-based exercises that address the threats to your organisation and test the readiness of your team.

- Discussion exercises – allow your people to explore issues in depth in a controlled environment.
- Functional exercises – scenario-based exercise conducted in an operational environment with your team performing their allocated roles.
- Field exercises – similar to a functional exercise, with realistic scenarios involving the deployment of personnel to a simulated incident or emergency.

## THE DYNAMIQ APPROACH

We help you to enhance your organisation resilience at every stage of the risk management life-cycle by integrating business continuity planning with risk, security, crisis and emergency management.

**PLAN** – Your risks are identified, assessed and prioritised and we help you coordinate resources to monitor and control those risks.

**IMPLEMENT** – We work with you to improve your risk and incident management practices which includes training your staff and testing your plans.

**MANAGE** – The skills of your staff are refreshed through training, continuous improvement and ongoing testing of your systems, procedures and equipment.

**RESPOND** – Your people are empowered to quickly and efficiently respond to any incident and minimise its disruption and impact.

**RECOVER** – Well-tested recovery strategies enable your people to get your business back to normal as quickly as possible.

**REVIEW** – After an incident, we help you investigate causal factors, review the effectiveness of your organisation's response and make the required adjustments to improve your approach for next time.
