

A man with short, light brown hair, wearing a dark suit jacket over a white shirt, is shown in profile from the chest up. He is holding a tablet computer with both hands and looking at the screen. The background is a blurred office environment with computer monitors.

# MANAGE INCIDENTS ANYWHERE, ANYTIME WITH **EMQnet**

EMQnet connects your teams so they can effectively manage incidents impacting your organisation.

## EMQnet STATS - PAST 12 MONTHS

## MANAGE INCIDENTS ANYWHERE ANYTIME WITH **EMQnet**

During an incident, immediate and verifiable facts are key to enabling quick and effective action. After the event, a clear record of what occurred allows you to investigate causal factors, review the effectiveness of your response and make the required adjustments to improve your approach for next time.

EMQnet is secure, online crisis management software designed by crisis management experts. A virtual control room, EMQnet connects your teams from anywhere in the world, on any device.

Time-stamped records of your people's actions enable a clear picture of events, empowering your people to make well-informed decisions as quickly as possible.

The system is both easy-to-implement and highly flexible so it can be customised to fit your unique operational requirements.

With ISO 27001 Information Security Management Systems accreditation, you can trust your data is safe and accurate with EMQnet.
