

STAYS SAFE

PROTECTING

YOUR STUDENTS

AND STAFF AT

HOME AND ABROAD

Whether there's an incident on a school tour or on school grounds, you need the ability to locate your teachers and students quickly and provide help if required.

Dynamiq's Global Alerting Platform, supported by our 24/7 Accredited Monitoring Centre, ensure your students and staff are never alone when they need you.

A DEVICE TO SUIT YOUR NEEDS

HOW WE CAN HELP KEEP YOUR STUDENTS AND STAFF SAFE

- **DEVICES TO SUIT YOUR REQUIREMENTS** - The app can be used by staff and students within cellular reception, while satellite devices can be used for remote locations.
- **HELP AT THE PUSH OF A BUTTON 24/7** - If an alarm is activated by your staff or students, our Accredited Monitoring Centre will respond to provide the required support.
- **TWO-WAY COMMUNICATIONS** - Push notifications, voice, SMS or email can be sent to individuals, as a broadcast, or you can issue ring-fenced messages to staff and students in a certain location.
- **CONFIRMATION OF SAFETY** - Your students can check in routinely or you can request confirmation of their safety at any time.
- **IMMEDIATE SNAPSHOT** - A real-time dashboard provides immediate visibility of your staff and students' whereabouts.
- **LOCATION CONFIRMATION** - Students can upload images to the platform to confirm their location.
- **CUSTOMISED TO YOUR NEEDS** - You can choose what information your staff and students have access to.

SUPPORTING YOUR SUCCESS

Whether your school group is in Melbourne or Europe, we have best-practice solutions to keep them safe. Contact us to find out more.
