

**WORKSAFE**

**PROTECTING**

**YOUR LONE**

**AND REMOTE**

**WORKERS**

Whether your people work alone or are located in limited network areas, you need to be able to locate and communicate with them at all times.

Dynamiq's Global Alerting Platform and devices, supported by our 24/7 Accredited Monitoring Centre, ensure your people are never alone, wherever they're working.

## A DEVICE TO SUIT YOUR NEEDS

## PROTECTING AN AGILE WORKFORCE

- **DEVICES TO SUIT YOUR PEOPLE AND THEIR ROLES** - Our platform allows for a range of different devices, such as GPS, satellite and mobile devices
- **HELP AT THE PUSH OF A BUTTON, 24/7** - If an alarm is activated by one of your workers, our Accredited Monitoring Centre will respond.
- **TWO-WAY COMMUNICATIONS WITH YOUR LONE AND REMOTE WORKFORCE** - Push notifications, voice, SMS or email can be sent to individuals, as a broadcast, or you can issue ring-fenced messages to workers in a certain location.
- **CUSTOMISED JOURNEY MANAGEMENT** - Lone and remote workers can provide scheduled or unscheduled check-ins on arrival or departure from specific locations, or at waypoints during a journey.
- **ABILITY TO LOCATE YOUR LONE AND REMOTE WORKERS** - A real-time dashboard enables immediate visibility of your workers' locations, anywhere in the world.
- **BUILD RULES AND ESCALATION PROCESSES TO SUIT YOUR BUSINESS NEEDS** - Administrator access allows you to customise the platform to your unique business requirements.

## SUPPORTING YOUR SUCCESS

Whether your employees are working in remote, limited network areas to full mobile phone coverage regions, we've got a range of options to help keep them safe. Contact us to find out more.
